# Kite collection 2021

This year Kite collection is a mix of traditional German quality, world trends, care for planet ecology and children's health. There is a Kite backpack for everyone! Our assortment offers models for any age and taste.

## Kite Kids collection – backpacks for the youngest

Charming backpacks for little darlings age 2 to 7. Convenient accessories and exciting toys combined. Suitable for pre-school and elementary school as an additional backpack for hobby groups and clubs. Kids will be thrilled with colorful designs!

## Kite Education – for elementary school

Backpacks that help to maintain ideal posture from an early age. Orthopedic models chased down by parents of first-graders around the world. An astounding assortment of framed, semi-framed and soft backpacks.

## Kite Education Teens – for high school

In the crazy whirlpool of designs every teenager will find a model to precisely highlight their individuality. Every backpack from Kite Education Teens collection comes with a gift – a stylish branded buff!

## Kite City – backpacks for the city

Convenient backpacks for every day that turn city streets into fashion runway of street style. Shocking and reserved, classic and daring, compact and roomy.

All school models come with orthopedic features. Patented backs Ergo Kids, Ergo Back, Ergo Teens, Air Comfort and innovative Anti Gravity System are designed for children of any age: from first-graders to graduates.

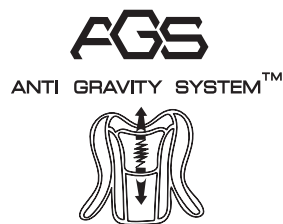

## Kite innovations in 2021:

**Wonder Kite collection is our pride! VIP offer for demanding customers.** Capsule school sets "Backpack + pencil case + shoe bag" with extended functionality and unique design. Sold only in sets.

**Backpacks with LED lights.** Light up and blink in three modes. Unique super decor that makes the accessory light up, so the child is well visible during hours of darkness.

**AGS back that significantly reduces load to the shoulders and back.** Works on principle of auto air suspension: as if the backpack is suspended in the air behind your back as you walk. The content of the backpack feels 25% lighter.

**Images that shine in darkness.** Special coating that accumulates light like phosphorus and radiates it in darkness.

**Backpacks made of recycled plastic bottles.** Each of these backpacks cleans 35 bottles from the planet (that's how many bottles are needed to produce one item).

**Perfect organization of interior space.** Pockets for gadgets are fitted with soft inserts to protect screens from scratches. For younger schoolchildren special space is designed to include personal information. Convenient navigation icons suggest each pocket's purpose.

Orthopedists recommend Kite! Entire collection of Wonder Kite and models KITE 501, 531, 555, 700, 706, 720 were approved and certified by the German Institute für Gesundheit und Ergonomie (IGR) and also recommended by Ukrainian orthopedists. Evolution is key for us and are always open to mutually beneficial cooperation with our clients!

**KITE – first class backpacks!**
